# Work wherever you are, however you like.

On the road, at home, dashing off to a client in the morning, or returning home in the evening. There's no doubt about it: Workstyles are changing.

To support people in all facets of their jobs, Fuji Xerox offers comprehensive mobile computing functions and keeps everyone connected via the Cloud.

We always look for ways to help bring out your best, wherever and however you work.

## Smooth, impressive client presentations

Eliminate the hassle and worry of lugging around bulky, confidential documents. Working Folder, our Cloud-based document sharing service, keeps your documents secure and your briefcase light.

Use a PC or Fuji Xerox multifunction device to store documents in Working Folder, then access and view with a smart device while at your client's office.

You can also print from a tablet or smartphone to multifunction devices when out of the office via wireless LAN.

## ApeosPort for simplified, secure document management

Featuring excellent scalability and customisability, ApeosPort boasts a galaxy of functions that also streamline management tasks and secure confidential information.

Users can now focus on work, assured of fast, easy access to shared information across the entire company.

- Link with an external authentication server
- Register frequently performed tasks for smoother workflows
- Encourage cost-cutting
- Restrict user permissions and limit printing/copying
- Log usage to monitor operations
- Monitor usage with UUID and image logs

\* Requires optional ApeosWare Management Suite.

# More features, simplified operation.

## Easy Fingertip Control.

The new ApeosPort-V series take advantage of technology seen in smartphones and tablets by enabling users to operate the devices intuitively, for faster and more efficient production. Four different gestures – tap, double-tap, drag and flick – can be used to scroll and switch functions smoothly and quickly.

## Making multifunction devices easier to use

### Simpler Operations

Operation screens can be simplified and made easier than ever to navigate by installing a free optional software application – EasyUI Solution 3. This offers individual users a simple and easy-to-use operation screen, reducing working time.

\* Available as a free download from our official website.

Preview finished results — for example, N-up or two-sided — before copying.

Utilizing “Custom Menu” allows individual user to place only buttons for functions he/she uses frequently, on the menu screen.

Register frequently used functions for one-touch copying or scanning.

Scanning is now much simpler with the automatic recognition of both the orientation and number of printed sides of the original document.

### Offices Using Five or More Devices

By utilising ApeosWare Management Suite 2\*, administrators can distribute print drivers, restrict use of the device to certain accounts, gather print counts, improve running efficiency, automate distribution processes and manage job logs. These applications make it a simple task to plan and manage usage of the device, while maintaining full security.

\* Software sold separately.

### Printable from Any Machine on Demand

If your preferred device is in use, print to another one using “Server-less On-Demand Print” solution. Up to 5 devices can be linked. When both A4 and A3 multifunction devices are used in the office, A3 print jobs will be automatically reduced to A4.

\* Optional.

### Print in different environments

The ApeosPort-V series can be shared and printing can be performed in two independent network environments. With two network ports, you can maximise the use of the multifunction device while maintaining tight security of having separate network.

\* Optional.

\* Print function only. Supported protocol: TCP/IP (lpd, Port9100) only.

### Linkage with Remote Authentication Servers

ApeosPort can access user information on an authentication server, facilitating user management without having to individually configure devices.

You can also read IC cards by installing the optional IC card reader\*.

\* Optional.

Built-in IC Card Reader

# Scan more efficiently.

## Various File Formats and Processing Supported

Users can convert scanned documents and data to numerous file formats including TIFF, JPEG, DocuWorks document, PDF and XPS\*1 before you send them by email. OCR processing can assist in searching for and compressing documents to reduce their size for e-mail communications\*2, and password settings can also be set.

\*1: Stands for XML Paper Specification  
\*2: Optional.

## Conversion to Editable Word and Excel Files

Scanned data can also be converted to files in Word or Excel format, and hardcopy documents can be converted into editable digital documents. The ApeosPort-V series devices can also convert tables and illustrations to objects suitable for reproduction with Word and Excel.

\* Optional.  
An auxiliary function that allows you to reuse materials such as text, tables, shapes, and photos on paper documents. However, accuracy will depend on the original document quality.

## Save/Print Using a USB Memory

You can save scanned data directly into the USB memory, and print documents and captured records directly from the USB memory.

\* Optional.

# Fax more effectively.

## Leverage of Timely Information with Paperless Fax

[Receiving]

Received fax documents can be sorted into different device folders by dial number or G3ID. After viewing the thumbnails, users can choose to print only designated documents. As soon as fax documents are received in a folder, they can also be sent as a fax, printed, sent as an e-mail, transferred via FTP, and transferred via SMB automatically.

[Sending]

Direct Fax (sending fax directly from PC) can also be used. Sent fax documents can also be saved as PDF and sent as e-mail attachments.

[Reject]

Allows administrators to block incoming faxes from certain numbers and anonymous numbers.

## Reduced communication costs compared to regular phone lines

- Internet fax\*1: Send scanned documents attached to e-mails.
- Direct fax: Send faxes without being routed through an SMTP server.
- Real time communication: Directly connect IP Fax (SIP) devices.\*2

\*1: Internet fax requires a working e-mail account. Maximum attachment size varies depending on e-mail account.

\*2: Requires optional IP Fax (SIP) kit. This kit supports multifunction devices that are JT-T 3.2 compatible and equipped with an IP Fax function offered by Fuji Xerox or Ricoh Company, Ltd.

## Dependability to ensure error-free faxing

- Re-entry of recipients
- Recipient confirmation display
- Confirm multiple recipients, delete unwanted recipients
- Prohibit sending to recipients not in the phonebook
- Manually cancel direct fax
- Manual redial

# Mobile and Cloud applications

## Google Cloud Print™

ApeosPort-V Series Work with Google Cloud Print™, so you can print on the go from your smartphone or computer using Google Cloud Print enabled apps.

\* iOS and Android™ devices as well as PCs can be used to output via Google Cloud Print™.

\* Google Cloud Print™ is a web-based print service provided by Google Inc.

## Print Utility for iOS / Android

Scan documents and save to iOS or Android devices via wireless LAN, and output web pages and pictures from the devices.

\* Print Utility for iOS and Print Utility for Android can be downloaded for free from App Store and Google Play™, respectively.

\* DocuWorks documents and PDF documents can also be output by linking with DocuWorks Viewer Light for iPhone/iPad.

## AirPrint

Print directly from an iOS device via wireless LAN. This eliminates the need to open data on a PC, download special software, or install a dedicated driver.

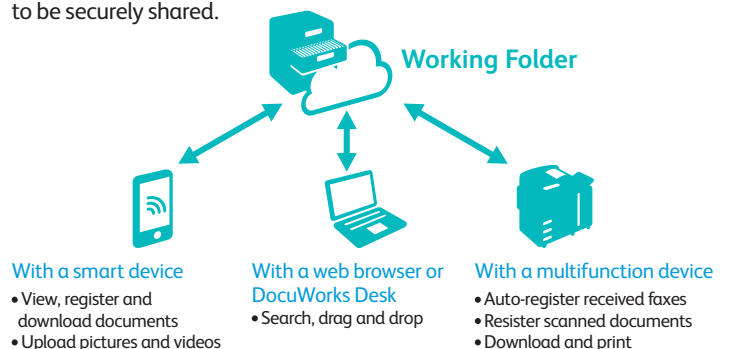

\* AirPrint is a standard print function included in iOS on iPhones and iPads.

## Working Folder

Store scanned documents directly to Working Folder, automatically upload received faxes and send upload notifications by e-mail. Stored documents can be viewed and edited on PCs or smart devices using a web browser or DocuWorks.

The enhanced security and management functions allow all information to be securely shared.

\*This function requires the Working Folder Service contract.

# Options

## Offering further finishing outputs including “Z Fold Half sheet” and “Tri-fold” with the new C3 Finisher

### Stapling

Stapling multiple pages documents, such as meeting materials into sets, is available.

### Punch

A hole punch process can be used for filing documents in binders.

### Saddle Staple

This Single Fold and stapling process is ideal for creating catalogues and booklets.

### Z Fold Half sheet\*

Z Fold Half sheet is a useful method to combine A3 documents into A4 size.

### Tri-fold\*

The C-fold is useful when creating materials enclosed in envelopes.

## Environmentally responsible

### Smart energy saving

The new ApeosPort-V series uses Smart Energy Management to power only the functions requested by users. This reduces power consumption and CO<sub>2</sub> emissions. To minimise noise, the scanning and output devices do not generate noise when not operating.

### Fast Wake-up of Control Panel

This activates the control panel in about 3 seconds after pressing Power Save button — another smart way to ensure eco-friendly operation.

### Visualise eco-friendly operation

Check the degree of eco-friendliness when printing via a five-step scale.

The more leaves shown, the more eco-friendly the operation.
